**Commissioner for Patents**

The Appeal Brief filed on 02 Jun 2009 is defective for failure to comply with one or more provisions of 37 CFR41.37.

The Summary of Claimed Subject Matter should explicitly map each independent claim limitation to the disclosure thereof in the specification. The Examiner suggests adding to this section each independent claim and parenthetically listing these disclosures within the body of the claim.

The Arguments section should include subheadings that list every claim discussed thereunder (i.e. "Claims 1, 3-5, and 7-9 are not anticipated...").

Evidence: Applicant cannot present new evidence in an Appeal that has not been previously presented during prosecution. As none of the Exhibits were presented during the prosecution of the case, they cannot be relied upon in an Appeal. Furthermore, Applicant must edit the Summary of Claimed Subject Matter (and all other sections) to remove references to these unacceptable Exhibits and must include a new Evidence Appendix listing "None".
